

## **VICKIE ROAN**

Vickie Roan began dancing at The Dance Factory School of Performing Arts in Rancho Palos Verdes, California under the direction of Michelle Monreal, Julianne Thompson and Ami Mattison. Vickie graduated from the performing arts high school, OCSA, and is now pursuing her undergraduate education at Chapman University, where she is planning to earn her Bachelor of Fine Arts in Dance Performance with a double minor in Psychology and Anthropology. She plays an active role in her dance community as the current president of Chapman Dance Alliance on campus.

Vickie is excited and grateful to have been able to tour the country assisting and working for Adrenaline Dance Convention as an ACE, to have professional credits that include Jason Gorman, Nicole Hogg, Cat Cogliandro, Ami Mattison, and to be a professional company member of Jessica Starr's MusEffect and Justin Giles' SoulEscape. Her most recent endeavor with Justin has allowed her to explore her role as the creative assistant of SoulEscape, while performing and teaching at the Company Intensive and Summer Event as a company member.

She is excited to continue exploring her voice as a teacher alongside pursuing her education and aspiration to remain a forever student.
